# ALINA MARKOVA

(808) 365-7932 | alina@markov.com | linkedin.com/in/alinamarkova | San Diego, CA 92037

## Education

**University of California San Diego (UCSD)** Jun. 2026
*Master of Science in Business Analytics, Spec. in ML & AI* *La Jolla, CA*

**University of California San Diego (UCSD)** Jun. 2025
*Bachelor of Science in Business Economics, Minor in Finance* *La Jolla, CA*

**Relevant Coursework:** AI Powered Customer Analytics, Agentic AI, Business Intelligence Systems, Scalable Analytics, Web Mining & Recommender Systems, Project Management

## Experience

**Business Analyst** Jun. 2026 – Present
*Scientist.com* *San Diego, CA*

- Founding member of Scientist's business analytics function; architecting reporting infrastructure, and analytics workflows.
- Building client-facing BI solution with customized, client-specific metrics that surface real-time platform health and procurement status, enabling clients to self-serve visibility into their Scientist.com engagement.
- Communicated strategic and operational findings to stakeholders to support critical decisions.

**Financial Planner & Analyst Intern** Jun. 2024 – Jul. 2025
*Scientist.com* *San Diego, CA*

- Created SQL-powered executive-level dashboards and reports, translating financial and operational data into clear, decision-ready insights for leadership.
- Assisted in building multi-year revenue and budget forecasts in Adaptive Insights in support of an upcoming transaction.
- Collaborated with accounting, finance, and data science teams to modernize financial operations and accelerate decision-making through automation.

**Consulting Intern** Jan. 2024 – Apr. 2024
*Mentor Global Consultants* *San Diego, CA*

- Analyzed market, competitor, and marketing channel performance for EdTech clients to support product launch strategy, contributing to a 19% reduction in marketing costs.
- Led user testing across acquisition and onboarding stages with 4 junior schools: translated findings into funnel and UX optimizations, increasing positive engagement by 22%.

## Skills & Competencies

**Enterprise & Finance Systems**: NetSuite, Workday Adaptive Planning (Adaptive Insights), Salesforce
**Programming & Data**: Python (pandas, polars, seaborn, numpy, sklearn, pyspark), SQL, R, Snowflake
**BI & Analytics**: Power BI, Tableau, Apache Superset, A/B Testing, Google Analytics
**Decision Support & Reporting**: Excel (Advanced), Adaptive Insights, Bloomberg

## Projects

**Petco Product Substitution & Demand Transference** | *MSBA Industry Capstone — Team Lead* Jan. 2026 – Jun. 2026

- Led a 4-person team in designing a demand transference framework for Petco's inventory and planning teams.
- Architected a new method for stock prioritization using existing features, improving pre-existing baseline assumptions by 82M.
- Applied attribute similarity scoring and stockout analysis to quantify substitution behavior, and reduce resulting revenue loss.

**Variance Intelligence Agent** | *Live Nation* Jan. 2026 – Jun. 2026

- Designed an agentic pipeline for post-event performance reporting, automating the comparison of revenue and attendance projections against actuals across Live Nation events.
- Built an LLM-orchestrated reasoning loop, combining structured SQL query results with external web search, to explore external causes for forecast misses.
- Developed a RAG knowledge base corpus to ground agent responses in proprietary business context.

## Leadership & Recognition

**Robert S. Sullivan Award for Exemplary Leadership**: Awarded by the UCSD Rady School of Management MSBA program.
**MSBA Cohort Representative**: Serve as the voice of a 160-member cohort, working with faculty to advocate for student needs and support career-focused initiatives.
**Teaching Assistant**: Work with faculty to support coursework and provided tutoring to reinforce quantitative and analytical concepts.
