Education

University of California San Diego (UCSD) Jun. 2026
Master of Science in Business Analytics, Spec. in ML & AI *La Jolla, CA*

University of California San Diego (UCSD) Jun. 2025
Bachelor of Science in Business Economics, Minor in Finance *La Jolla, CA*

- **Relevant Coursework:** Project Management, Business Intelligence Systems, AI-Enabled Customer Analytics, Agentic AI, Web Mining & Recommender Systems

Experience

Business Intelligence Analyst Jun. 2026 – Present
Scientist.com *San Diego, CA*

- Founding member of the BI team; led cross-functional delivery of the company's first in-house BI tool, now the primary reporting source for internal teams, customers, and suppliers.
- Partnered with engineering, data science, customer success, and supplier success to turn customer and business needs into requirements, priorities, and a launch plan.
- Integrated LLMs into the savings validation workflow, cutting monthly review time by over 70%.
- Manage the team's intern, scoping projects and reviewing deliverables.

Financial Planner & Analyst Intern Jun. 2024 – Jul. 2025
Scientist.com *San Diego, CA*

- Supported multi-year revenue and budget forecasts in Adaptive Insights ahead of a company transaction.
- Built SQL-powered executive summaries that gave leadership decision-ready views of financial and operational performance.

Consulting Intern Jan. 2024 – Apr. 2024
Mentor Global Consultants *San Diego, CA*

- Led user testing across acquisition and onboarding with 4 schools, turning findings into UX changes that raised positive engagement by 22%.
- Analyzed market, competitor, and channel performance to shape an EdTech product launch, cutting marketing costs by 19%.

Skills & Competencies

Product: Requirements gathering, stakeholder management, prioritization, user testing, A/B testing, prototyping
Technical: SQL, Python, Snowflake, HTML/CSS/JS, LLM integration & AI agents
Tools: Apache Superset, Power BI, Tableau, GitHub, Slack, Salesforce, HubSpot, NetSuite, Google Analytics, Excel

Projects

Petco Product Substitution & Demand Transference | *Capstone – Project Lead* Jan. 2026 – Jun. 2026

- Led a 4-person team building a demand transference framework for Petco's inventory and planning teams.
- Designed a stock prioritization method that outperformed Petco's baseline inventory assumptions by $82M.

Ad Targeting Uplift Model | *Creative Gaming* Mar. 2026 – Jun. 2026

- Analyzed a 120K-user randomized ad experiment and built uplift models to identify which users ads actually persuade; targeting the top 25% maximized incremental profit versus a conversion-based approach.

Leadership & Recognition

Robert S. Sullivan Award for Exemplary Leadership: Awarded by the UCSD Rady School of Management.
MSBA Cohort Representative: Voice of a 160-member cohort, working with faculty on student needs.
Teaching Assistant, UCSD (2 years): Business in Healthcare, Ethics of Accounting, Financial Statement Analysis.
